Environmental Science

Synopsis

"Inspiring people to care about the planet" In the new edition of ENVIRONMENTAL SCIENCE, authors Tyler Miller and Scott Spoolman have partnered with the National Geographic Society to develop a text that will equip you with the inspiration and knowledge you need to make a difference solving today's environmental issues. Exclusive content highlights important work of National Geographic Explorers and Grantees and features over 180 new photos, maps, and illustrations that bring course concepts to life. Using this empowering book, you will learn how nature works, how you interact with it, and how you can use various scientific principles based on how nature has sustained life on the earth for billions of years to live more sustainably.

Customer Reviews

I received my rental text yesterday and I was surprised that it was brand-new! (First time renter here). I quickly read through the first chapter and it was surprisingly very interesting. I'm hoping the rest of the text is the same! It's also filled with beautiful photos, graphs, and illustrations making it nice to look at, too.

This textbook is beautiful!!!! It has beautiful pictures in it!!! It gives really good information about environmental science!! Strongly recommend this book!!!!Also, the book itself is in a really good condition!! It is a new book!!!! If u want to rent this book, this is a good choice!!!!

This book is extremely easy to read and understand. The case studies provide information to help explain the concepts being presented in each chapter. The "helps" make studying time more profitable. I highly recommend this book.

Seems good.

Good book

Thanks

Did not received this item, instead I got a book called elementary statistics

:)
