I didn't realize library bound means small! This book is the size of a childs book . Very disappointed in it. I love the Labonte brothers so I'll keep it but don't assume it's a regular size book. No where did I see measurements so I was fooled . Not worth more than \$5 for it's size.

I bought this book from several years ago and I still own the book to this day. I am saving it for my children when they are born. But this is a great book for little boys who love cars and racing! Tons of great pictures about the Labonte Family racing legacy that still lives on!

My dad loves the Labonte brothers and I bought this book for christmas and he was very pleased. I have never seen a book like this at a book store and was glad to find something so personalized to his liking.
