I bought this book because I recently had an idea for a historical romance with a strong mystery/suspense plot. I've never tried to write a full-on mystery before and I felt intimidated. The idea of having multiple suspects and subplots and dropping (and hiding clues) felt overwhelming to me. When I looked through the books offered on for mystery writing, I saw many reviews that said the books were less about mystery writing and more about writing in general, which was not what I wanted. I already own books on writing and I've studied writing, so I just wanted a book to explain the particulars of the mystery genre. This book was perfect. The book is divided into four main

sections: Planning, Writing, Revising, and Selling Your Mystery Novel. Each section includes several chapters. The first section covers the basics: The premise, the sleuth, the villain, the crime, the suspects, etc. The Writing Section explains dialogue, point-of-view (POV), how to insert clues and make them seem unimportant next to red herring clues. There is also a chapter on how to write the action/suspense scenes. As other reviewers have stated, this book contains a lot of exercises. Some of the exercises relate to using examples from your own work-in-progress and some exercises are based on excerpts from other books that Ephron presents and you have to continue the dialogue or write another version of the scene. I enjoyed this book because it broke things down in a way that was easy for me to understand. I found Chapter 17, Writing Investigation: Clues, Red Herrings, and Misdirection, to be very helpful. Page 157-158 in my edition explain how to distract the reader from realizing the significance of a clue. The chapter on the villain is basic, but useful.
