I am an Early Childhood Education major and I need this book for all of my ECED math classes that

I have to take for the program. This book is really helpful in finding different approaches of teaching math. It's also A LOT cheaper to rent this book from instead of going through my school bookstore!

I've been trying to contact seller. Delivery stated that it was left in front of my house... checked and asked neighbors if maybe they took it in for me... Nothing... i had to re buy the book and pay even more somewhere else... needed it to use my 1st week of class... i need a refund and seems like no one is contacting me back . These books are not cheap

Daughter was starting her class, this book came on time and having the access codes available saved me from extra expenses. Thank you.

Good shape when delivered.
