California Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

Synopsis

The Golden State is the permanent or migratory home of 644 species of birds, including the state bird – the teardrop, top-knotted California quail. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Customer Reviews

This worked very well for a whaling trip I went on. I took a grease pencil with me that I tied to a hole I punched in the top of the guide. This way, no matter how much water got sprayed on us, I could still underline or circle the birds I saw so that I could later enter them in bird. The problem with the guide was that it only had about half of the birds I saw in it. It wasn't very comprehensive but I guess you have to expect that with a folding guide.

I misunderstood, I thought this was a book. It is a sheet folded in 3. It only shows the males of a few different birds in S. CA. not what I was expecting. Not all that helpful when my sons are just beginners in bird watching.

This California bird guide is great! It is ultra light and can be tucked into a pocket or back pack. It's coated in plastic, so water, sweat or anything wet will not destroy it. I also wished I would have bought a book called BIRDS OF CALIFORNIA by STAN TEKIELA. I regretted it, every day, for 9 days When I got back to my room, it would have given me fine point details and I could have looked up the more uncommon birds.

Pretty little pictures of some birds. Not very useful as a guide for identifying more than general categories of birds. Definitely an introductory guide. Nice waterproof plastic cover.
