Farrow & Ball Decorating With Colour

Synopsis

Farrow & Ball is an iconic heritage brand and a great business success story. Following on from the best-selling Farrow & Ball *Living with Colour*, this exciting new book features a fabulous range of homes, all specially photographed for the book. Whether an Italian palazzo, a converted factory in Paris, the attic of an Amsterdam canal house, or a family home in Southern Germany, these interiors are full of fresh ideas and clever ways to use paint and wallpaper. The book is divided into three main chapters: Classical, Country, and Contemporary. Under these headings, 18 varied locations are presented as case studies. In addition, spread throughout are ten informative Decorating Principles, containing discussion and analysis of different decorating concepts and enabling the reader to put them into practice in their own home. At the end of the book there is a glossary of Farrow & Ball's immensely popular neutral color palettes and information on choosing the right type of paint. Practical, intriguing and sometimes surprising, this is a book certain to inspire creativity in all home decorators.

This book is exquisite: substantial in size and weight with each page styled and photographed so beautifully, images are like still life paintings. Filled with extraordinary spaces and styled just-right without being fussy, the book is approachable and filled with visuals that are sure to spark ideas to implement in your own space, no matter the size. This book is great! Not only does it have amazing ideas on wall color it has beautiful decor. It is one of the best home decor books I've bought.

Love all of Ros Byam Shaw's books - her aesthetic is impeccable. Did not love this one as much as her "Perfect English" series, though I love Farrow and Ball's paints. Is certainly inspirational, however, if you are an anglophile at heart, as I am!

Aside from their stunning paint products - F&B's decorating books are eye candy for all those who want to be inspired in how color transcends language to create the most amazing spaces.

Very useful for actually painting the house. Big photos with names of the paints in the description. Helpful for seeing the colors in a big space, not just on the color cards. I'll give this to someone who wants a coffee table book now that we're done with the painting

Farrow and Ball has the most incredible colors, and this book shows them off in ways people live today. Very enjoyable photographs, the writing is well done and the information at the end of the book is priceless. Just needs another 40 or so pages in my opinion. Definitely worth buying.

Very pleased with the book and received it more quickly than expected.
