Shells Of Florida-Gulf Of Mexico: A Beachcomber's Guide To Coastal Areas

Synopsis

"This colorful, educational guide is an excellent resource for identifying the shells, common sea beans and other coastal drift found in beach, lagoon and bay habitats. Great for all ages and is perfect for anyone who enjoys the coastal areas whether briefly visiting the beach to nature enthusiasts and beachcombers. This conveniently sized guide features photographs grouped by color of some of Florida's common, uncommon and highly sought shelled animals. Other aquatic coastal animals are also included, plus important information about the wrack line and the coastal drift treasures hidden there. Common and scientific names, shell ranges, maximum sizes, and other features are described in this guide. Field identification assistance and educational tips are also presented. This pocket-sized, 12-panel, laminated, waterproof guide is great for outdoor coastal experiences."

This plasticized, folded array of shells was the perfect gift for my granddaughter who will be visiting that area in December. She sat right down and began studying the photos and loves that she can carry it to the beach safely. A handbook that will get a lot of use and yet not be damaged by the sand or water.

Very handy on the beach. Waterproofing especially good since the kids would lay it down in the sand as they checked their shells.

Recently we made a trip to Sanibel Island where the shells are abundant and this little booklet really helped us identify our treasures!! I would highly recommend this for the casual collector!

This will be great to take on an upcoming beach trip! And with it laminated no worries about the water hurting it !

nice laminated waterproof fold up with pictures of shells and a little info about them, since it's waterproof you can take it with you on your shell excursion

Excellent, laminated, fold-out guide to identify sea shells while actually on the beach. Very light weight and a small enough guide to easily carry with you on beach outings, also sturdy and waterproof. Easy to clean after each use.

This guide has fantastic pictures (not poorly drawn sketches) and information. They even have a ruler on the guide to help you correctly identify the shell. I always have a copy of this one in my car so I am sure to have it with me whenever I stop by the beach.

Great little information item. Grandkids used it on the beach to ID the shells they pick up. Plastic covered and cleans up with simple wipe of a damp cloth.
